

THE ULTIMATE DOMESTIC RAINWATER TANKS

Australian made and owned All Weather Tanks are unobtrusive, strong and durable rainwater tanks that are built to withstand the elements. With custom designed curved tops to reduce the collection of dust and dirt all year round each tank is made from Food Grade UV20 Polyethylene which means you can be assured of quality water storage for your home and garden.

THE PERFECT FIT

The All Weather Tanks slimline range is designed to fit within a common door frame (excludes 5000l slimline) or garage door (2040mm) so no matter where you live we make installation easy.

OUR RANGE

The All Weather Tanks range is designed with Australian design standards in mind to suit Australian conditions and Australian building codes.

AUSTRALIAN QUALITY

All Weather Tanks "Built to last" Warranty gives you the confidence that our tanks will withstand Australian conditions. All Weather Tanks come with our genuine 10 year repair or replacement warranty.
